General Partitions Advantages

* A leader in the industry with over 50 years of experience, offering the largest selection of partitions in the industry, with 4 different styles, and 9 different types of material.

• All of our partitions are proudly made in the USA at either our Union shop in Erie, Pennsylvania – or in our southern facility located in Alabama.

• Outstanding customer service since its inception – second to none!

• Shipping schedules you can depend on – 98% of all orders shipped within one day of the schedule date.

• Our shipments arrive to you safely with our cellular poly crate, which has proven to reduce freight damage. Statistically, 99% of the steel orders arrived to the jobsite damage-free.

• Express ship allows your orders to ship as quick as 2 working days

• Use of TORX head fasteners with pin to prevent theft and vandalism.

• Barrier free design and operational handles to meet ADA requirements.

240 Compartments: of Series 40 floor mounted/overhead braced
Material: Solid Phenolic Core
Partition Styles

30 SERIES
Where no overhead bracing is required, but ceiling hung partitions are impractical. General Partitions’ 30 series (floor supported) is ideal. Modern spaciousness and rigidity are important features. The 30 Series is also featured in a 54” “Junior Size” which has proved to be a great help with younger children.

40 SERIES
Our most popular style of toilet compartment construction is 40 Series (floor supported with headrail.) It is recommended for new and old buildings where economy, ease of installation, and rigid overhead bracing are required.

50 SERIES
The ease of floor maintenance when General Partitions 50 Series (ceiling hung) style is used, has influenced architects and building owners to utilize this style particularly on construction where dropped ceiling or open span type construction is practical.

60 SERIES
General Partitions’ floor to ceiling Series 60 is recommended for all areas subject to heavy usage. For problem areas we recommend the use of full length aluminum brackets and hinges.

EASTERN STYLE
When increased privacy is required
“Eastern style” is an option that can be incorporated into any of our partition series and materials when privacy is a concern
“Eastern max style” can also be incorporated into any series and material of partitions when maximum privacy is required
*Panels and doors are specified as 67” high and mounted 3-1/2” off of the floor
*Continuous brackets and no sight door options to minimize any sight gaps
General Partitions is well known in the partition manufacturing industry for having excellent shipping schedules. Express shipment will ship in 2 working days. Our complete color chart is available upon request.

**CONSTRUCTION**

General's standard panel with Ribcore sound deadening reinforcement is offered as a standard at no extra charge. Sheet metal skins are bonded under pressure, to each cell of the core with an adhesive impervious to moisture. Lighter weight, greater strength and permanently flat panels are provided through this type of construction.

**Corner reinforcements**

Used on all steel partitions at exposed corners. Mechanically fused to the edges. Doubles the strength of the corner. Also allows field repairs if and when required. Eliminates welding and grinding of the corners which removes the protective zinc coating as well as part of the metal edge.

**GREEN ALERT**

- Environmentally safe – our Hybrid Polyester – Epoxy powder contains no harmful solvents or VOC’s applied electrostatically and baked in an energy efficient infrared oven to cure.
- Contains post consumer and post industrial recycled steel and may contribute to LEED Certification.

**ANTIGRAFITTI OPTION AVAILABLE**

- Fireproof steel partition will not support a flame or produce toxic gases.

**EXPRESS SHIP COLORS**

**POWDER COATED AND STAINLESS STEEL CONSTRUCTION AND DETAILS**

**OP/OVERALL PRODUCT**

General’s Powder Coated Galvanized Bonderized Steel is available in all styles for toilet partitions, showers and dressing compartments. The economy and durability of Powder Coated Steel makes it the popular choice for new construction or remodeling.
Stainless Steel

STAINLESS STEEL
Stainless Steel is not only a good selection for strength and durability, but is an architecturally pleasing addition to any decor. Available in Satin, or a variety of textures and patterns.
- Fireproof steel partition will not support a flame or produce toxic gases.

TEXTURED STAINLESS STEEL
The partitions are fabricated with a deep textured finish, and offer the following advantages:
- Vandal Resistant
- Resists Fingerprints and Smudges
- Reduces Maintenance Costs
- Guaranteed 15 Years

GREEN ALERT
- No VOC’s.
- Contains post consumer and post industrial recycled steel and may contribute to LEED Certification.
- Stainless Steel is 100% recyclable.

OP/OVERALL PRODUCT
STAINLESS STEEL
General’s stainless steel is available in all styles for toilet partitions, showers and dressing compartments. Stainless steel, the deluxe steel partition material is easily cleaned and will hold its beauty for years. Dirt, grease and cosmetics are easily removed. Even scratches can be eliminated by buffing the finish and blending the surface.

All colors and patterns are printed reproductions only. Please request actual sample for absolute color fidelity.
High Density Polymer

General Partitions Mfg. Corp.

**EXPRESS SHIP COLORS**

General Partitions is well known in the partition manufacturing industry for having excellent shipping schedules. **Express shipment will ship in 5 working days.** Our complete color chart is available upon request.

---

**STANDARD**

- Heavy duty 8” wraparound and continuous aluminum brackets at all locations adds strength and durability
- Graffiti resistant
- 25 year guarantee

**OPTIONS:**

- Continuous plastic brackets and shoes
- Integral and continuous hinges
- No sight strike
- Class A and B fire rated

---

**GREEN ALERT**

- We recycle all waste and scrap which is used in the production of our new sheets of HDP
- We use reclaimed material in our production
- Our HDP sheets are completely 100% recyclable
- We also have 100% post consumer HDP partitions available

---

**NOW CLASS “B” FIRE RATING OFFERED**

---

**OP/OVERALL PRODUCT**

**HIGH DENSITY POLYMER**

General’s H.D.P. toilet partitions, showers and dressing compartments are manufactured using high density polymer resin. Color is solid thru-out. Compartments cannot rust, rot, delaminate or absorb odors like marble. Water resistant, can be used under any moisture condition. Perfect for shower and dressing compartments as well as toilet partitions.

**HORIZONTAL SECTION**

---

**TYPICAL DETAILS**

- Continuous "U" Extrusion
- Continuous "T" Extrusion
- #12 x 2" S.S. Torx Screws & Anchor
- Aluminum Surface Mounted Slide Latch
- Aluminum Inswing Stop and Keeper
- #14 x 3/4" S.S. Torx Screws
- 1" Sex Bolt
- Top & Bottom Wrap-around hinge
Solid Phenolic Core

OP/OVERALL PRODUCT
SOLID PHENOLIC CORE
General’s S.P.C. toilet partitions, showers and dressing compartments are fabricated of solid phenolic core with matte finish high pressure melamine fusion welded to surface of core to form a one piece unit which will not delaminate, edges are black solid phenolic resin. Completely water resistant, impervious to steam, soaps and detergents. Will not mildew.

EXPRESS SHIP COLORS
General Partitions is well known in the partition manufacturing industry for having excellent shipping schedules. Express shipment will ship in 5 working days. Our complete color chart is available upon request.

GREEN ALERT
• Contains post industrial recycled material.
• SFI certified.
• GreenGuard certified.
• May contribute to LEED certification.

Color-Thru Solid Phenolic Core

Color-Thru Solid Phenolic Core Panels offer all the strength and durability of our black core phenolic, with the added advantage of consistent matching color throughout the core, forming a one piece panel which will not delaminate. Excellent choice for high traffic areas. The Color-Thru Phenolic carries all the same specs and hardware as our standard black core SPC.

ADVANTAGES
Toilet Partitions offering all of the dependability of Phenolic, but adds the advantage of being color consistent throughout the thickness of the partition. It continues to be completely water resistant, impervious to steam, soaps, and detergents.

Standard Product highlights
• Extremely tough surface
• Outer color extends all the way through the product
• Class A fire rated

COLOR OPTIONS
Plastic Laminate

**OP/OVERALL PRODUCT**

**PLASTIC LAMINATE**

General’s plastic laminates are available in all styles for toilet partitions and dressing compartments. Plastic laminate material is easily cleaned and can’t rust. Dirt, grease and cosmetics do not penetrate the durable plastic surface which is highly resistant to scratches.

**EXPRESS SHIP COLORS SHOWN***

*Express colors can ship in 5 working days. Others shown ship in 10-15 days. Our complete color chart is available upon request.

Solid Plastic HDP Lockers

General Partitions solid plastic locker is constructed of a one-piece HDP body with no mechanical fasteners or hardware.

The locker frame is attached using full length dado joints secured by continuous plastic welds. The continuous spring-loaded latch mechanism provides a vertical lift that is designed to accept a padlock. The latch mechanism is attached to the length of the door, providing a continuous, secure latch.

Our Door Hinge is also continuous and contains no metallic knuckles or pins.

Solid Plastic benches with pedestals available to match the lockers.

- Solidly Constructed of High Density Polymer
- Perfect for High Moisture Areas
- Will not Rust, Rot, Dent or Corrode
- 20 Year Limited Warranty

GREEN ALERT

- We recycle all waste and scrap which is used in the production of our new sheets of HDP
- We use reclaimed material in our production
- Our HDP sheets are completely 100% recyclable

Available Sizes

A = 12”, 15”, or 18”
B = 12”, 15”, or 18”
C = 24”, 36”, 48”, 60”, or 72”

All colors and patterns are printed reproductions only. Please request actual sample for absolute color fidelity.
## Urinal Screens

### Wall Hung (WHS)
- Screen is 1" thick insulated panel sealed with locking bar and mitered corner reinforcements.
- Hung from three chrome-plated "T" brackets.
- WHS-1  Powder Coated galvanized and bonderized steel
- WHS-3  Stainless steel panel.
- WHS-4  Plastic Laminate - High Pressure Laminate.
- WHS-6  Solid Phenolic Core (1/2" thick panel).
- WHS-10  Fiberglass Reinforced Plastic

### Wall Hung Flange (WHF)
- Screen is 1" thick insulated panel with continuous anodized aluminum channel.
- WHF-1  Powder Coated galvanized and bonderized steel
- WHF-3  Stainless steel.
- WHF-6  Solid Phenolic Core (1/2" thick panel).
- WHF-7  High Density Polymer
- WHF-10  Fiberglass Reinforced Plastic

### Floor Braced Screen (FBS)
- Screen is 1" thick insulated panel supported by a floor supported pilaster (see Series 30 specification).
- FBS-1  Powder Coated galvanized, bonderized steel.
- FBS-3  Stainless steel.
- FBS-4  Plastic Laminate - High Pressure Laminate.
- FBS-6  Solid Phenolic Core (1/2" thick panel - 3/4" thick pilaster).
- FBS-7  High Density Polymer
- FBS-10  Fiberglass Reinforced Plastic

### Floor Supported With Headrail (FSH)
- Headrail braced 1" thick double-wall panel (see Series 40 specification). Panel set into extra-heavy wall extruded aluminum pilaster. Stainless steel floor shoe.
- FSH-1  Powder Coated galvanized, bonderized steel panel and integrated extruded aluminum pilaster.
- FSH-3  Stainless steel panel with integrated painted rustproof, aluminum pilaster.
- FSH-4  Plastic Laminate - High Pressure Laminate. Panel set into pilaster attached to panel with chrome-plated offset brackets thru bolted.
- FSH-6  Solid Phenolic Core (1/2" thick panel - 3/4" thick pilaster). Pilaster attached to panel.
- FSH-7  High Density Polymer. Pilaster attached to panel.
- FSH-10  Fiberglass Reinforced Plastic. Pilaster attached to panel.

## Shower Cabinets and Partitions

General's shower cabinets are available in standard sizes and in finishes to match toilet and dressing compartments. They may be used in units or battery-type installations for institutional projects such as schools, dormitories, clubs, hospitals or industrial buildings.

### SHOWER CABINETS
General Partitions' shower is the finest in double-wall unit shower construction. It features a pre-cast terrazzo receptor. Available sizes — 32" x 32" x 82", 36" x 36" x 82", 40" x 40" x 82" Neocorner, 40" x 40" x 82" or 40" x 48" x 82" Handicapped.

### Shower/Dressing Compartments
Available in Powder Coated, Stainless steel, F.R.P. (Fiberglass Reinforced Plastic), S.P.C. (Solid Phenolic Core), HDP (High Density Polymer). The S.P.C., HDP, material is non-absorbent, completely water resistant, impervious to steam, soaps and detergents and will not mildew. These features, coupled with the finest hardware available, makes an unbeatable combination.
Stainless Steel, bonded before attaching die drawn molding to sides and end, mitered reinforcements fused to corners for added structural strength. Filler shall be 0.090 stainless steel. All hardware and fittings to be secured with vandal-proof sex bolts or No. 14 screws of proper lengths.

SHOWER CABINET

Double-Wall — Powder Coated Steel Scope — All shower cabinets shall be double-wall powder coated steel with pre-cast terrazzo receptor as manufactured by General Partitions Mfg. Corp., Erie, Pennsylvania.

Walls — Shall be 1 1/4" thick with two sheets of galvanized and bonderized steel, bonded before attaching die drawing molding to sides. Same construction as panel. Pilasters are to be anchored to floor with heavy gauge angle. Top of pilaster to be securely braced with extruded aluminum headrail with integral crown loafer rail.

Headrail — To be integral crown loafer rail, extruded aluminum heat-treated and anodized with necessary fittings.

Pilasters — Shall be 1 1/4" thick with two sheets of galvanized and bonderized steel, bonded before attaching die drawing molding to sides and end, mitered reinforcements fused to corners for added structural strength. Same construction as panel. Pilasters are to be anchored to overhead member (which member is to be supplied by others) with standard 3/8" threaded rod, nuts and washers to provide vertical adjustment and necessary strength.

60 Series — Plasters — Shall be 1 1/4" thick with 2 sheets of stainless steel, bonded before attaching die drawing molding to sides and end, mitered reinforcements fused to corners for added structural strength. Same construction as panel. Plasters are to be anchored to floor and ceiling with heavy gauge angle. Top of pilaster to be securely braced with extruded aluminum headrail with integral crown loafer rail.

Hardware — Concealed latch (No. 2000D), coat hook (No. 6200D), hinge brackets (No. 1250D), and door stop keeper (No. 2060D) heavy cast terrazzo receptor as manufactured by General Partitions Mfg. Corp. Erie, Pennsylvania.

Receptors — Black and white terrazzo. Sizes 32" x 32", 36" x 36", 40" x 40" Neo-corner or 40" x 40" Handicapped. Fittings — Brass drain with stainless steel strainer.

Options — Shower walls may be prepared at factory to receive shower head and valve supplies by others. Curtains, valves, heads, arms and soap dishes are available as optional extras.

PLASTIC LAMINATES HIGH PRESSURE

Scope — All plastic laminate high pressure toilet partitions shall be indicated (or more style numbers as required) 30, floor supported; 40, floor supported with headrail; as manufactured by General Partitions Mfg. Corp., Erie, Pennsylvania.

Doors and Panels — Shall be 1" thick facing and edging 11/16" general purpose laminated plastic. Same construction as panel. Plasters are to be anchored to the floor with standard 3/8" threaded rod, nuts, and washers to provide vertical adjustment and necessary strength.

60 Series — Plasters — Shall be 1" thick facing and edging 11/16" general purpose laminated plastic. Same construction as panel. Plasters are to be anchored to the floor with heavy gauge angle. Top of pilaster to be securely braced with extruded aluminum headrail with integral crown loafer rail.

Headrail — To be integral crown loafer rail, extruded aluminum heat-treated and anodized with necessary fittings.

All shower cabinets shall be high density polymer walls with pre-cast terrazzo receptor as manufactured by General Partitions Mfg. Corp., Erie, Pennsylvania.

Walls — Shall be 1 1/2" thick solid phenolic (3/4" or 1" thickness also available).

Receptors — Black and white terrazzo. Sizes 32" x 32", 36" x 36", 40" x 40" Neo-corner or 40" x 40" Handicapped. Fittings — Brass drain with stainless steel strainer.

Options — Shower walls may be prepared at factory to receive shower head and valve supplies by others. Curtains, valves, heads, arms and soap dishes are available as optional extras.

H.D.P. (HIGH DENSITY POLYMER)

Scope — All H.D.P. (High Density Polymer) toilet partitions shall be indicated (or more style numbers as required) 30, floor supported; 40, floor supported with headrail; 50, ceiling supported; 60, floor to ceiling; as manufactured by General Partitions Mfg. Corp., Erie, Pennsylvania.

Doors and Panels — Shall be 1" thick facing and edging 11/16" high density polyethylene formed under pressure. Solid color throughout. All edges to be machined radius and all sharp edges removed.

60 Series — Plasters — Shall be same construction as doors and panels. Pilasters are to be anchored to the floor with heavy gauge angle. Top of pilaster to be securely braced with extruded aluminum headrail with integral crown loafer rail.

Headrail — To be integral crown loafer rail, extruded aluminum heat-treated and anodized with necessary fittings.

60 Series — Plasters — Shall be same construction as doors and panels. Pilasters are to be anchored to floor and ceiling with heavy gauge angle.

Options — Shower walls may be prepared at factory to receive shower head and valve supplies by others. Curtains, valves, heads, arms and soap dishes are available as optional extras.

F.R.P. FIBERGLASS REINFORCED PLASTIC

Scope — All F.R.P. Fiberglass reinforced plastic shall be indicated (or more style numbers as required) 40, floor supported with headrail as manufactured by General Partitions Mfg. Corp., Erie, Pennsylvania.

Walls and Panels — shall be .090 textured fiberglass reinforced plastic bonded under pressure to a treated wood core.

40 Series — Plasters — Shall be same construction as doors and panels. Pilasters are to be anchored to the floor with heavy gauge angle. Top of pilaster to be securely braced with extruded aluminum headrail with integral crown loafer rail.

Headrail — To be integral crown loafer rail, extruded aluminum heat-treated and anodized with necessary fittings.

Options — Shower walls may be prepared at factory to receive shower head and valve supplies by others. Curtains, valves, heads, arms and soap dishes are available as optional extras.

S.P.C. (SOLID PHENOIC CORE)

Scope — All S.P.C. (Solid Phenolic Core) toilet partitions shall be 30 series, floor supported; 40, floor supported with headrail; 50, ceiling hung; 60, floor to ceiling; as manufactured by General Partitions Mfg. Corp., Erie, Pennsylvania.

Doors — Shall be manufactured of solid phenolic core material 3/4" thick with high pressure matte finish melanite surfaces. Edges shall be bevel.

Panels — Shall be same construction as doors — 12" thick.

50 Series — Plasters — Shall be 3/4" (1" available) thick solid phenolic core material. Same construction as doors and panels. Pilasters are to be anchored to floor with standard 3/8" threaded rod, nuts, and washers to provide vertical adjustment and necessary strength.

40 Series — Plasters — Shall be 3/4" (1" available) thick solid phenolic core material. Same construction as doors and panels. Pilasters are to be anchored to floor with heavy gauge angle. Top of pilaster to be securely braced with extruded aluminum headrail with integral crown loafer rail.
